Tyranna Resources Ltd. (ASX:TYX) is the holder of:

14,301,973 shares in Orinoco Gold which is currently equivalent to
6.57% of the Company
2,400,000 Performance Shares Class B
1,500,000 Options exercisable at 25 cents each
1,428,571 Options exercisable at 11 cents each

The Directors of Tyranna Resources Ltd. (ASX:TYX) note the recent announcement by Orinoco Gold Limited regarding drilling results from its 100% owned Sertao prospect in Brazil where Troy Resources previously mined **256,800 ozs** of gold, at a head grade of **24.95 g/t** between 2003 and 2006. The prospect is on an established mining lease.

The Sertao prospect is approximately 20km to the South of the flagship Cascavel prospect - and along the same mineralised shear zone structures. Cascavel is scheduled to commence gold production this quarter.

Whilst further work will be necessary, these results clearly indicate that Sertao could become an important part of Orinoco's regional gold production plans.
